

Dear FCC Commissioners:

Please implement the law which allows cell customers to bring their phone numbers with them if they switch companies (LA Times). Cell companies already have the consumer in a stranglehold of contracts and hidden renewals, the least the FCC can do is allow consumers freedom of choice.

Please uphold the FCC 's rules requiring commercial mobile radio service (CMRS) providers to support service provider LNP in the top 100 Metropolitan Statistical Areas MSAs) by November 24, 2002.

Thank you for your time.

Neal Cohen
